

Sonnentherme Lutzmannsburg: Paradise for families – babies, kids and parents!

The place where for us the smallest are the greatest! Immerse yourselves in our six adventure worlds at the Sonnentherme Lutzmannsburg with our favourite mascot, Sunny Bunny. For at Europe's leading baby and toddler thermal spa, fun and relaxation are not contradictory terms. Not for the little ones or for those who have long since left their water wings behind.

Hearing their child's carefree laughter is for parents the greatest reward. At Sonnentherme Lutzmannsburg this kind of laughter is everywhere. In **Baby World**, babies and small kids have a world of adventure all to themselves. They can explore the element of water with their mums and dads in the shallow baby pool and baby groove and toddlers can take their first ever plunge into the water on our Quaxi or Flipper slide. And all you'll hear from our "Bubble Pool", a special pool for little ones, is squeaks of delight!

The baby & kids sauna with its steam bath and baby shower will warm your little water-baby's heart. Expert advice included. After their adventures in the water, mothers can withdraw with their little ones to feed and change them undisturbed. Splashing around makes you hungry so in the baby kitchen equipped with bottle-warmers you can enjoy the treats you have brought with you. And mobility is taken care of: pushchairs and playpens are available on free-of-charge loan.

Plunge to the earth on over 800 metres of slide equipment. In **Speed World** young and old alike can relish in unlimited slide adventure. The absolute highlight is the "XXL Monster Ride", at 270 metres the longest slide in Austria in which you slide in an enormous "swimming hoop" for up to three persons. And the children's top favourite is the "Air Racer". Here you plunge into the depths on a tube for one. **Fun World** has over 1,000 square metres of water area. You need to be a bit brave to try out the wave pool and torrent.

On the outdoor grassy play area there are lots of attractions. For the little ones there's a train making its rounds, going through the tunnel and arriving back at the station with everyone safe and sound. On waterways, kids in bumper boats sail towards the port with its lighthouse and boathouse. They make the very smallest advance towards the baby beach to make their very first sandcastle, before throwing themselves into the water. You have here around 450 square metres of water area for small children to play in.

Big people too will enjoy fun and action in the **outdoor area**. From the diving platforms, it's two or three metres down into the water. For those who dare to climb, there's the three-metre high climbing wall – landing lightly in the outdoor "splash pool". There's fun and action too in the kids' play area, in the gigantic sand pit, on the trampoline, in the bouncy castle, on the Bobby Car racing circuit and of course in Sunny Bunny's outdoor show arena. The park-like sunbathing area is the place to relax in the Burgenland sun, including some lovely spots in natural shade.

SONNENTHERME

Leave the stresses and strains of everyday life behind and with no thoughts of tomorrow. **Wolfgang Stündl**, the managing director of Sonnentherme Lutzmannsburg explains: “With **Relax World** we have created a family zone away from the hurly-burly. It’s a retreat for parents – but one where they don’t have to be without their kids“. Allow yourself to relax in 170 square metres of lovely warm thermal water while lying on a bubbly water lounger or enjoying a bench massage. It’s perfect for mums-to-be looking for relaxation before facing the challenging days ahead. Sweating is the norm at **Sauna World** in all its variety, until you take the plunge – literally - and jump into the ice-cold pool. Or you can relax after the heat in the quiet area.

The diversity of facilities at our “**Sunny Bunny Swim Academy**” is immense: from baby experiences to synchronised swimming. But that’s not all, there’s also a specially developed training pool for small kids where they will benefit from professional swimming instruction and enjoy a baby massage and baby wellness. Bigger kids will swim properly for the very first time on toddler and kids’ swim courses. They can learn how to do real dives, somersaults and twists on our “jumping water fleas” programme. They can dive into in our mermaid programme to learn how to do synchronised swimming. For adults there are specially designed swim and aqua-fitness courses. Mums-to-be can get ready for their big day with the “Magic Movements” programme, including water gymnastics and aqua relax.

New every week, varied baby and kids events from a **free-of-charge programme of exercise and entertainment!** Inviting, guided sauna sessions for babies and kids, baby “kneipp” pool and free tasters on the various water programmes. Once out of the water, swimming enthusiasts will be tempted by the indoor play area. Artists can be creative in the world of artists or doing some handicrafts in the Kids Club. Your little ones can take a look in the cooking pots in the kids baking workshop or even wield a wooden spoon themselves. Young film fans will love the 3D cinema.

Highlights at a glance at Sonnentherme Lutzmannsburg:
